

## **Marsh Captive Solutions is looking for an Actuary to join our Risk Analytics Team!**

*Do you have a quantitative and/or actuarial background, looking for the possibility to combine your analytical and communicative skills to help drive growth? And are you interested in joining a global leader in insurance broking and risk management? Then this might be the role for you!*

### **About the role**

Marsh is currently recruiting for an Actuary to join the Marsh Risk Analytics (MRA) team and to be a Risk Analytics Leader for the Nordics. MRA represents the engine room and the content creation part of Marsh's Business with its resources fully dedicated to risk modelling, benchmarking, loss parameterization and data management: to foster consistency, the MRA unit includes all activities related to risk retention strategies and risk financing optimization solutions.

Reporting to the Risk Analytics Leader in North West Europe, you will be responsible for leading actuarial analysis for major corporate clients and internal stakeholders. Working in concert with Marsh Captive Solutions and the local Marsh teams, the actuarial analysis created by you will support new and expanded revenue and client retention efforts.

### **Main Responsibilities**

- Provide technical Solvency II actuarial analysis, validation and other Marsh actuarial engagements.
- Help identify opportunities to use actuarial science to add value to Marsh clients and the Marsh business.
- Ensure projects are delivered on-time and to the high standards required of Marsh.
- Work with Marsh Risk Analytics to drive consistency and best practices.

### **Qualifications**

- Bachelor's degree in Math, Actuarial Science, Statistics, Economics, Finance or related field
- Solvency II Actuary
- 3+ years pension related work experience preferably in a consulting environment
- Successful client relationship experience
- Experience and knowledge from the insurance market
- Strong analytical and mathematical skills. Understanding of Actuarial principals and methodologies
- Excellent interpersonal skills; strong oral and written communication skills
- Ability to prioritize and handle multiple tasks in a demanding work environment

### **About Marsh Captive Solutions**

Marsh Captive Solutions ("MCS") is part of Marsh Inc., the Risk and Insurance Services division of Marsh & McLennan Companies, Inc. and the world leader in insurance broking and insurance programme management for business, professional, institutional and public-entity clients.

MCS is a leading global manager of captive insurance companies, managing more than 1,200 single-parent and group captive programmes through our network of captive management offices worldwide.

Dedicated captive management, advisory, and actuarial colleagues around the globe engage with our Marsh analytics, brokerage, and risk consulting teams to provide the specialised expertise and strategic resources to help create comprehensive, results-focused solutions for all of our clients' risk management needs.

**Application**

This is a full-time position where you have the possibility to choose if you would like to be located at our office in Stockholm or in Copenhagen.

You apply for the position by sending your application to [hradmin.sweden@marsh.com](mailto:hradmin.sweden@marsh.com). If you have any questions regarding the role you are welcome to send an email to Erik Yllen, [erik.yllen@marsh.com](mailto:erik.yllen@marsh.com) Marsh Captive CEO Sweden or to David Kraft, [david.kraft@marsh.com](mailto:david.kraft@marsh.com) Head of Risk Analytics. We will need your application as soon as possible and no later than the 8<sup>th</sup> of May.
